MRS. MORGAN WAS FIRST TO GRAPPLE WITH ASSAILANT

Holt Goes on Hunger Strike and Condition Said to Be Serious

[Associated Press by Federal Wireless] GLENCOVE, Long Island, July 6.—From an eyewitness of the assault on J. Pierpont Morgan, it is learned that his wife was the first to grapple with Frank Holt, the assassin.

Mrs. Morgan pinned his arms to his side and probably prevented him from pumping more bullets into her husband's body. Morgan himself, though wounded, was the first to get clear of his chair at the breakfast table and leap to his aid.

In a moment more the butler was beating Holt over the head with a coal scuttle, and Sir Cecil Spring-Rice, the British ambassador, who was a house guest, was helping disarm him.

After careful comparison of photographs of Holt taken since the shooting in the Morgan premises with photographs of Erich Muester, detectives said that they were convinced that Holt is not the wife-murderer wanted.

Holt vigorously denies that he is Muester. He states that in 1906, when the Muester murder took place, he was in Germany. He declares that he has never been in Cambridge in his life.

The bomb placer and would-be assassin is in a grave condition. He refuses food of any kind. He is being kept incommunicado, the secret service men and police detectives being the only ones allowed to question him.

Unless his condition improves, it is probable that his arraignment, set for tomorrow, will be postponed.

NO KNOWLEDGE OF FORMER LIFE.

Despatches from Dallas, Texas, where Mrs. Holt is now living, state that she has no knowledge of the early life of her husband. They were classmates at the Texas Christian University, at Fort Worth, from which he was graduated in 1908. He never confided in her, however, regarding his boyhood.

BOMB EXPLODED IN N. Y. POLICE HEADQUARTERS.

NEW YORK, July 6.—A bomb was exploded last night in the basement of police headquarters, shattering the windows and doing other inconsequential damage. The explosive was placed under the detective bureau.

CARRANZA SENDS REINFORCEMENTS AGAINST CAPITAL

[Associated Press by Federal Wireless] WASHINGTON, D. C., July 6.—A new attack on Mexico City is probably in progress at this moment, though the government is without direct advice. General Carranza's agency here, however, is informed from Vera Cruz that reinforcements have reached General Gonzalez, in command of the Constitutional army, and that he has resumed the offensive. In his first assault he was driven back by the Zapatistas.

Fort Shafter Notes

(Special Star-Bulletin Correspondence) FORT SHAFTER, July 6.—1st Lieut. Fred A. Cook, 2d Infantry, has been granted a sick leave of absence for four months to take effect immediately and was a passenger on the transport Thomas yesterday for the states. Lieut. and Mrs. Cook will spend a large part of their leave in New York.

The army transport Sherman, due at Honolulu next Wednesday, will bring a number of passengers for Fort Shafter. Lieut. Vernon W. Boller, 2d Infantry, who has been on leave of absence for two months with Mrs. Boller, who is a patient at Fort Bayard, N. M., will return for duty.

1st Lieut. Thomas L. Chrystal, who has been on duty with the National Guard of New York, and 1st Lieut. Paul R. Manchester, who has been on duty as instructor at West Point, are also on the passenger list.

1st Lieut. J. R. D. Matheson, Corps of Engineers, returning from examinations for promotion to the grade of captain, and 1st Lieut. A. K. B. Lyman, Corps of Engineers, returning from leave spent in the East, are also passengers.

What came near to being a very serious automobile accident but turned out fortunately happened last Sunday evening in the post. Automobile No. 98, owned by two non-commissioned officers of the band, 2d Infantry, and used by them in the rent service, was rounding the curve coming out of the gulch near headquarters when the driver lost control of the machine and jumped the curb, resulting in a broken wheel, bent axle and other slight damages. If the accident had occurred a few feet short of where it happened the machine would no doubt have plunged over into the gulch.

Amateur night at the aerodrome has been put ahead several days this time and will take place on Thursday night. The change was necessary on account of the probable departure of the 2d Battalion, 2d Infantry, on a hike the early part of next week. There are a great many entries and the usual prizes will be offered. Many of the amateurs from the post are appearing in the city at the local theaters and from all accounts are making good.

Mrs. Ira Longenecker, wife of Lieut. Longenecker, 2d Infantry, has returned to her home in the cantonment after undergoing an operation for appendicitis at the department hospital about 16 days ago. Lieut. and Mrs. Longenecker were to have left on the transport yesterday, but he was fortunate enough to get an extension of tour for one month at the last minute.

Under the direction of Chaplain Scott, 2d Infantry, assisted by a detail from the Signal Corps, the members of the garrison were treated to a splendid fireworks exhibition last evening on the main parade. The enlisted men of the garrison responded generously in the collections made by Chaplain Scott for material and were well rewarded.

Capt. Paul B. Malone, 2d Infantry, was a departing passenger on the Thomas for the mainland. Capt. Malone will be the senior instructor at the encampment at the Presidio and will be on duty there for two months. Capt. Malone's family will remain at Fort Shafter until his return from San Francisco.

Capt. Brady G. Ruttenclutter, 1st Infantry, who has been a patient in the department hospital for several weeks, was sent to the states on the transport Thomas. Captain Ruttenclutter will proceed to the government hospital at Fort Bayard, N. M., upon arrival at San Francisco.

Capt. and Mrs. C. A. Martin, 2d Infantry, were passengers on the Thomas yesterday. Capt. Martin has been detailed as a student at the army school of the line at Fort Leavenworth, Kansas, and will begin his studies early in September.

The younger set in the garrison who have been spending Sunday and Monday in camp at Kalia, returned to the post Monday evening tired, but enthusiastic. Maj. and Mrs. Leithan chaperoned the party.

Lieut. Harry R. McKellar, Medical Corps, stationed at Fort Shafter, has been promoted to the grade of captain. Capt. McKellar will in all probability remain on duty here for some time.

NEW LAWS START GREAT BOOM FOR INSURANCE MEN

The Hawaiian Islands are truly a "paradise" for the insurance agents. On the windows of every insurance office in Honolulu flaunt banners announcing that the workmen's compensation policies can be obtained inside.

The larger companies and those who are seeking to grasp the biggest part of the workmen's compensation insurance, are using the advertising columns of the daily newspapers liberally. But workmen's compensation insurance is not the only kind of insurance that is being distributed on a wholesale scale.

The insurance companies themselves are forced to file bonds with the territory. Bonds representing from \$1000 to \$10,000 for each class of business transacted by the various companies must be filed by the various insurance concerns. This is to protect the policy holders and is in accordance with another law which went into effect Thursday.

A third law, however, also acts to the benefit of the insurance man. This law is the act which went into effect July 1 compelling all county officers and all their deputies to file bonds with at least two sureties on every bond. These bonds are to be filed with the auditor of the county where the public employee earns his salary.

It is estimated that hundreds of thousands, the figures probably by this time reaching into the millions, in workmen's compensation policies and in bonds have been contracted for with local insurance agencies, because of laws passed by the 1915 legislature.

AMERICANS IN LONDON HAVE QUIET FOURTH

[Associated Press by Federal Wireless] LONDON, Eng., July 6.—The customary observance of Independence Day by the American colony here was practically omitted yesterday. Only a few American flags were to be observed, and the usual American dinner, at which the American ambassador is host to distinguished Britons at the American embassy, was not given. Ambassador Page held an informal reception during the afternoon, and this was the extent of the observance of the national anniversary.

The wait is a national German dance and was introduced into England by a German baron 100 years ago.

Last year Germany launched six steamers of more than 10,000 tons, the largest being of about 56,000 tons gross.

Home Course in Advertising

To be Conducted in this Paper by Alex. F. Osborn, Instructor in Advertising, Pacific M. C. A. High School

PURPOSES OF THE COURSE:—(1) To increase returns for the retailer who now advertises. (2) To show the non-advertising retailer how he can lower his prices, yet increase his profits. (3) To suggest to the jobber and manufacturer a cautious method to create demand and increase good-will. (4) To prepare the person with latent advertising ability for a place in this new "profession."

This course, when delivered personally to a class of students, costs \$15. It is equivalent to a correspondence course which costs \$95. The entire 90 lessons will be given exclusively with this newspaper free of charge.

First Analysis By Retail Advertiser.

Of all the possible natural virtues in a retailer's advertising, that of timeliness is about the greatest aid to success. Timeliness can also be created. For instance, if you were to find that a store in a neighboring city had burned up, you could arrange for a sale of the remaining goods, and in that way cash in on the element of timeliness for fair.

This kind of strategy is somewhat artificial, yet as in the case of sales of bought-up bankrupt stocks, this application of the timeliness appeal often has a sound basis in the fact that in this way exceptional merchandise values are really made possible.

As a retail dealer, you must also analyze your goods from the standpoint of their advertising appeal. Most things which you will advertise will have their appeal simply in that they are less in price—either less than they were, or less than they are usually offered at in other stores. But many things will have to be presented in an explanatory way. In that case the points of appeal will

HUERTA WEEPS WHEN REFUSED HIS LIBERTY

Is Deeply Hurt at Treatment Meted Out to Him By United States

[Associated Press by Federal Wireless] EL PASO, Texas, July 6.—With all his air of joviality gone, former President Huerta, held a federal prisoner here, broke down yesterday and wept when he was informed that he would not be allowed his liberty on bonds, pending his trial on a charge of violating the neutrality of the United States.

"I am deeply hurt at the treatment I have received at the hands of the United States," he said.

"I have given my word of honor that I will not leave El Paso if released on bail, yet I am forced to occupy a prison cell and my word of honor is treated as valueless."

"No one can say that I ever broke my word. Neither have I broken one law of the United States. I am willing to face trial, because I am innocent of any wrong doing."

A further application for the release of Huerta on bonds will be presented to the United States commissioner today.

IN WAR ARENA

NO CONSCRIPTION FOR BRITISH ARMY.

LONDON, Eng., July 6.—It is not the intention of the British government to resort to either conscription for the army or navy or to any compulsion, to speed up work in the ammunition factories or the other manufacturing plants engaged on army and navy contracts. A definite announcement to this effect was made yesterday by Premier Asquith, speaking for the government. His statement is taken to mean that no further necessity exists for legislation to force men into the fighting line or to secure an adequate supply of munitions.

GERMANY DENIES LONGING BATTLESHIP.

LONDON, Eng., July 6.—Official denials have been made at Berlin of the Russian claim that a German dreadnought battleship was torpedoed and sunk in Friday's battle in the Baltic. The official news from Petrograd is accepted here as the truth, however, and the denials of Berlin are scorned.

BRITISH SCHOONER SENT TO BOTTOM.

LONDON, Eng., July 6.—The British schooner Sunbeam was torpedoed off Kirkwall, but the crew was saved.

FOURTH OF JULY IS OBSERVED IN LOCAL CHURCHES

Independence Day was well observed in Honolulu churches Sunday, patriotic addresses and sermons being delivered from the pulpits, coupled with music appropriate to the occasion.

Carl W. Hamilton of New York City spoke at Central Union church in the morning. His address, while entitled "What Americans Need Most," was of a religious rather than a political nature. "What Makes the Nation Great" was the theme chosen by Rev. Edwin E. Brace, pastor of the Methodist church. He recited the history of the origin of the Fourth of July and told in an interesting manner how the first "Fourth" was celebrated.

The speaker at the Christian church was Rear-Admiral C. B. T. Moore. His subject was "The Significance of Independence Day." He dwelt on the crisis through which the nation now is passing and declared that, while he hopes the United States never will become involved in the European conflict, war is preferable to dishonorable peace. Eternal vigilance is the price of liberty and peace, he continued. It is a man's duty to safeguard his home from the attack of burglars and it is the duty of a nation to be prepared to resist the attacks of another nation, the speaker said.

"The Man Without a Country" was the theme of A. F. Cooke's address. Mr. Cooke spoke at the Kalia Union church. The sermon at St. Andrew's cathedral was delivered by Bishop H. B. Restarick. His text was from Romans 8:21—"The glorious liberty of the children of God."

"The rights of man, as we hold them, are all based on the teachings of Jesus, whether men recognize it or not. It was a new and startling doctrine which the Apostles carried to the world. When St. Peter told the Roman centurion that 'God was no respecter of persons,' he himself had come to that knowledge only after having seen a vision, for it was contrary to a belief accepted by all at that time."

"Let us not forget that human liberty is not the product of human reason. Liberty and the inalienable rights of man sprang from Christian truth, and this truth has been developed so that upon it in due time the ideas of liberty on which the United States were founded had grown into the hearts of men."

The island of Maui will soon have an anti-treating law, provided a resolution to be acted upon the last of the month is passed. The resolution which has been written by the Maui liquor license commission will prohibit treating in all saloons or other drinking places on the island.

LYNCHING BEE IN GEORGIA; TWO NEGROES HANGED

[Associated Press by Federal Wireless] MACON, Ga., July 6.—Race riots broke out in this district yesterday, following the killing of Silas Turner, a planter, by negroes, with whom he had a dispute concerning a bill he was trying to collect.

When the news of the killing of Turner became known, white posers began to scour the country in a search for the murderers. One negro, who failed to give a satisfactory account of himself, was lynched, his young son strung up beside him and both bodies riddled with bullets.

The posers have not yet succeeded in finding any of the negroes believed to be directly implicated in the killing. Many of the negroes of the district are in hiding, fearing a general massacre.

ARCHBISHOP QUIGLEY DANGEROUSLY ILL

[Associated Press by Federal Wireless] ROCHESTER, N. Y., July 6.—James Edward Quigley, Archbishop of Chicago, is seriously ill. Hope has been abandoned and his death is expected momentarily. Archbishop Quigley is 61 years old. He became bishop of Buffalo in 1897 and archbishop of Chicago in 1903.

WOMEN "MOTORMEN" SEEN IN GERMANY'S CAPITAL

[Associated Press] BERLIN, Germany.—Women as motormen on the Berlin street cars, in addition to the hundreds already serving as conductors while their husbands are in the field, are now in prospect. Women also are to replace men at the various railroad stations, where the main duty is to punch the tickets of travelers as they make for their trains, or take them up as they leave the platforms. The latter work is not strenuous and it is believed it can be performed easily by the women.

EPIDEMIC OF TYPHUS IN SERBIA BEING OVERCOME

[Associated Press] NISH, Serbia.—The typhus epidemic is lessening in force, since the greatest number of sick now recover, whereas formerly the greater part died. There is now no complaint about the need of doctors, for many have been sent to Serbia from the United States, Great Britain and other countries. The main work to be done is the cleaning up of the outlying districts and disease-breeding grounds. New buildings for the reception of patients during the hot weather have been erected outside of Nish.

STATE OFFICIALS THINK GERMAN REPLY FRIENDLY

Gerard Says Counter Proposal Will Be Submitted By the Teuton Government

[Associated Press by Federal Wireless] WASHINGTON, D. C., July 6.—Ambassador Gerard at Berlin, who has discussed with the Imperial government the content of the forthcoming German reply to President Wilson's second Lusitania note, cabled to the state department last night that Germany will put forward a counter proposal for the regulation of submarine warfare.

The department is gratified at this assurance and infers that the tone of the German note will be friendly and its substance in the main satisfactory.

The delay in forwarding the reply is interpreted as a hopeful sign of a desire to reach a closer understanding.

HAWAII SONGBIRD SINGS PATRIOTIC ANTHEM AT FAIR

[Associated Press by Federal Wireless] SAN FRANCISCO, July 6.—To an open-air audience of 50,000 persons, gathered last night in the exposition grounds, Mrs. Marion Dowsett Worthington of Honolulu sang the "Star Spangled Banner."

SENATOR PHELAN WOULD REMOVE SULLIVAN FROM SAN DOMINGO

[Associated Press by Federal Wireless] WASHINGTON, D. C., July 6.—As the result of the investigation conducted by Senator Phelan of California into the conduct in office of Minister James M. Sullivan, appointed by Secretary Bryan to the Republic of Santo Domingo, instructions have been sent him which, in effect, amount to a request for his resignation. He was accused of having used his position for personal ends.

WHAT DYSPEPTICS SHOULD EAT

A PHYSICIAN'S ADVICE

"Indigestion and practically all forms of stomach trouble are, nine times out of ten, due to acidity; therefore stomach sufferers should, whenever possible, avoid eating food that is acid in its nature, or which by chemical action in the stomach develops acidity. Unfortunately, such a rule eliminates most foods which are pleasant to the taste as well as those which are rich in blood, flesh, and nerve-building properties. This is the reason why dyspeptics and stomach sufferers are usually so thin, emaciated, and lacking in that vital energy which can only come from a well fed body. For the benefit of those sufferers who have been obliged to exclude from their diet all starchy, sweet or fatty food, and are trying to keep up a miserable existence on gluten products, I would suggest that you should try a meal of any food or foods which you may like, in moderate amount, taking immediately afterwards a teaspoonful of bisphosphate of magnesia in a little hot or cold water. This will neutralize any acid which may be present or which may be formed, and instead of the usual feeling of uneasiness and fullness, you will find that your food agrees with you perfectly. Bisphosphate of magnesia is doubtless the best food corrective and food antacid known. It has no direct action on the stomach; but by neutralizing the acidity of the food contents, and thus removing the source of the acid irritation which inflames the delicate stomach linings, it does more than could possibly be done by any drug or medicine. As a physician, I believe in the use of medicine whenever necessary, but I must admit that I cannot see the sense of dosing an inflamed and irritated stomach with drugs instead of getting rid of the acid—the cause of all the trouble. Get a little bisphosphate of magnesia from your druggist, eat what you want at your next meal and take some of the bisphosphate of magnesia as directed above, and see if I'm not right." For sale by Benson, Smith & Co., Chambers Drug Co. and Hollister Co.—Advertisement.

ASK YOUR NEIGHBOR

So many thousands of women have been restored to health by Lydia E. Pinkham's Vegetable Compound that there is hardly a neighborhood in any city, town or hamlet in this country wherein some woman has not found health in this good old-fashioned root and herb remedy. If you are suffering from some woman's ill, why don't you try it?—Adv.

The European war has seriously affected the demand for Canadian wheat abroad, and in consequence increased shipments have been made from Nova Scotia to the United States, within the last few months.
